

# Investment Implementation Policy Document

## Veolia Energy Pension Scheme

December 2022

### 1. Introduction

This document sets out the detailed day-to-day implementation of the investment policy of the Veolia Energy Pension Scheme (“VEPS”, or “the Scheme”). It should be read in conjunction with the Scheme’s Statement of Investment Principles (the “SIP”), which outlines the broader framework of the principles governing decisions about investment of the Scheme’s assets.

This document will be amended as necessary by the Trustee to reflect any changes to the Scheme’s investment arrangements.

### 2. Investment strategy

The Scheme is invested in a fiduciary management mandate with Schroder Investment Management Limited (“Schroders”). The mandate was appointed in December 2016 and is specified according to:

- A Flight Path de-risking strategy, with level triggers to automatically move to a lower-risk Phase of the strategy when the funding level improves above a pre-agreed funding level.
- The following specifications at each Phase:
  - o A target allocation to Growth and Matching Portfolios
  - o A target Growth Portfolio Return
  - o A target level of Liability Coverage.

More information on the Flight Path framework is shown in Sections 2A, 2B and 2C.

#### 2A Flight Path Framework

Phase	Proxy Funding Trigger Levels	Target Allocation			Target Growth Portfolio Return <sup>2</sup>	Target Liability Coverage	Date Phase initially observed
		Growth Portfolio <sup>1</sup>	Matching Portfolio				
			LDI	B&M <sup>3</sup>			
Initial	Initial	72%	28%	-	SONIA + 2.8% p.a.	87%	N/A
1	>101%	<i>Schroders to notify Trustee</i>					*
2	>102%	72%	28%	-	SONIA + 2.6% p.a.	102%	*
3	>103%	<i>Schroders to notify Trustee</i>					*
4	>104%	72%	28%	-	SONIA + 2.4% p.a.	104%	*
5	>105%	<i>Schroders to notify Trustee</i>					*
6	>106%	50%	30%	20%	SONIA + 2.4% p.a.	106%	*
7	>107%	<i>Schroders to notify Trustee</i>					*
8	>108%**	25%	35%	40%	SONIA + 2.4% p.a.	108%	*

1 Growth Portfolio Target Allocation includes the Retained Illiquids specified in Part B of Schedule 2A

2 Target Growth Portfolio Return represents the target return excluding the Retained Illiquids.

3 Matching Portfolio Target Allocation includes the Schroder Matching Plus Buy and Maintain Credit Sterling Cashflow over 2032 Fund. **Initial allocation at the point of implementing each Phase; thereafter, the B&M allocation will not be rebalanced.**

\*Phase has not been observed at the time of drafting this Agreement.

\*\* Schrodgers will notify the Trustee and await instruction from the Trustee before implementing this Phase.

## 2B Growth Portfolios

The Growth Portfolios are managed by Schrodgers in a discretionary multi-asset portfolio with the following permitted asset classes:

### Growth Portfolios – Permitted Asset Classes

Asset Class	Asset Class Category
Equities	Equities
Fixed income – Government Bonds	Government Bonds
Fixed income – Inflation linked Bonds	Government Bonds
Fixed income – Investment Grade Credit	Credit
Fixed income – High Yield Debt	Alternatives

Schrodgers has discretion to alter the asset allocation within the Growth Portfolios within the following ranges:

### Central Portfolio Weights and Permitted Ranges

Asset Class Category	SONIA + 2.8% Central Weight	SONIA + 2.6% Central Weight	SONIA + 2.4% Central Weight	Permitted Range
Equities	27%	24%	21%	+/- 10%
Government Bonds	20%	23%	27%	+/- 10%
Credit	30%	30%	30%	+/- 10%
Alternatives	18%	17%	16%	+/- 5%
Cash	5%	6%	6%	+ 15% / Min 0%

The table above excludes the allocation to Illiquid Assets.

Additionally, the Scheme has an allocation to the following Illiquid Assets:

- DAWM – Pan-European Infrastructure Fund**  
 This Fund aims to achieve relatively stable, income-orientated returns by investing predominantly in established private companies and assets active in the European Infrastructure sector. The Fund will target an Internal Rate of Return of 10% per annum, net of fees, with prospects to deliver 6% to 8% per annum income.
- Patrizia – TransEuropean Property Partnership V Fund**  
 The Fund targets a leveraged internal rate of return of 10% p.a., net of Partnership fees, operating and transaction costs and local taxes (but before performance fees and investor level taxes). It also targets a weighted annualised distribution yield of 5.5% p.a.

## 2C Matching Assets

Schroders manages the Matching Portfolio with the aim of providing a degree of liability matching in respect of certain estimated future cashflow liabilities of the Scheme, by seeking to reduce the impact of the risk of interest rate and implied inflation movements affecting the Present Value of a proportion of the Liability Proxy.

The Present Value of the Liability Proxy is calculated using the following discount rates:

Liability discounting	Reference	Gilt Curve	Margin	+0.77%
Liability inflating	Reference	Gilt Curve	Margin	+0.00%

### 3. Investment Management Fees

Schroders is employed as fiduciary manager to the Trustee. Schroders receives a fee for its fiduciary management services as follows:

- Fiduciary Management fee – an annual fee calculated at the rate of:  
  
0.155% on the first £300 million  
0.125% on the next £150 million  
0.075% thereafter  
  
of the value of the total assets of the Scheme, and the following Divisions of the Veolia UK Pension Plan: VES FSD, VES MD and VWS FS;
- Matching Portfolio fee – a fee calculated at the rate of 0.045% of the value of the Target Liability Coverage per annum.
- Growth Portfolios fees are charged directly within the underlying funds, which includes both Schroders and third-party funds managed by Schroders and funds managed by third parties. The fiduciary manager provides the Trustees with a summary of underlying component fees on a periodic basis.

The fees for the current components of the Growth Portfolio are as follows:

#### Growth Portfolio component fees

Asset Class Category	Fund	Fee (p.a.)
Equities	Schroder Risk Controlled Global Equity	0.16%
Government Bonds	Schroder Advanced Beta Global Sovereign Bond	0.07%
Credit	Schroder Advanced Beta Global Corporate Bond	0.10%
Alternatives*	Schroder Diversified Completion Fund	0.00%
Cash	Schroder Sterling Liquidity Plus	0.04%
Buy & Maintain credit	Schroder Matching Plus Buy and Maintain Credit Sterling Cashflow over 2032 Fund	0.09%

\*Schroders has waived the annual management charge of this fund. The fees for the underlying managers in the Fund are estimated as 0.74% p.a. as at 31 December 2021 (these will vary over time as the components inside the Fund change).
